Survey and responses

Zoho Survey logged 874 visits to the survey and 438 responses. This included:

- 15 who lived outside Bucks, and
- 4 whose child with SEND was 26 or over.

This leaves 419 respondents whose data is included. None was asked all the questions, and some didn't answer all the questions that they were asked, so the number of responses for each question varies. Answers with fewer than 1% are shown with a *

This question was not asked in 2021

I used a different method to resolve the disagreement (please specify)

- Direct comms with senior ECCHO
- Solicitor
- communication with school using support from charities
- Contacted case worker at county and still trying to solve
- Decision to assess still ongoing
- Email complaint to director of education but passed down to director of send
- Emailed Bucks CC directly and it was resolved eventually
- Emails
- Had to raise issues with management within the SEND team at Bucks council
- Have never had any engagement with Bucks. Hopeless.
- I just kept emailing and calling and finally things moved forward. Still not sure if it's resolved as I'm still waiting to find out.
- I raised it with the school directly.
- I raised my concerns to a senior EHCCO who has been extremely helpful
- I'm so worn down by them mentally that my health is very poor and I have stress induced conditions. I have asked questions and for more support in emails to the EHCO, nearly everything gets ignored.
- I'm exhausted, so deregistered didn't want fines.....
- Local authority visited school and went back to ECCHO to rebook at the ECHP as was rejected originally so I didn't have to go through appeals
- Many many emails and complaints about missing deadlines
- Private option. CAMHS and NHS GP referral Route would have been too slow and believe our child would have ended up in hospital again.
- Re- consideration on asses for an Ehcp
- They realised they had made a mistake with the allocation.
- Tried working with EHCO and her manager but they don't bother responding, ignore emails entirely and quote blanket policy which is unlawful
- Using private EP was not in connection with Council
- Worked with coordinator to address them
- Working with the school directly
- Sendias.SW, SEND
- EHCP appeal
- Im still waiting for my childs ehcp to be issued
- I've had no dealings with BCC, thankfully the school are more supportive.
